

Security Awareness Training

Advantage Industries utilizes KnowBe4 which is the world's most popular integrated Security Awareness Training and Simulated Phishing platform with over 17,000 customers. This provides a platform to better manage the urgent IT security problems of social engineering, spear phishing and ransomware attacks.

With world-class, user-friendly new-school Security Awareness Training, KnowBe4 gives you self-service enrollment, and both pre-and post-training phishing security tests that show you the percentage of end-users that are Phish-prone. KnowBe4's highly effective, frequent, random Phishing Security Tests provide several remedial options in case an employee falls for a simulated phishing attack.

Features of Training Program

- **Baseline Testing** - We provide baseline testing to assess the Phish-prone percentage of your users.
- **Train Your Users** - The world's largest library of security awareness training content; including interactive modules, videos, games, posters and newsletters.
- **Phish Your Users** - Best-in-class, fully automated simulated phishing attacks, thousands of templates.
- **See The Results** - Enterprise-strength reporting, showing stats and graphs for both training and phishing, ready for management.
